About This Game

From the artists behind the smash hit Towerfall comes the critically-acclaimed Out There Somewhere.

You play as an astronaut stranded on a strange and dangerous alien planet. Low on fuel, your only hope for escape is to make your way to the planet's core.

It will take brains and quick reflexes to survive in this incredibly clever action platformer.

"Out There Somewhere isn't a normal game, though: it's a platformer with a devious twist and a truly shocking difficulty curve. It's a platformer with a very late level, for example, that contains absolutely no platforms at all - just empty space and a doorway right near the ceiling. This is challenging stuff, but it's wonderfully creative with it, and I'm not sure I can recommend it enough."

-Eurogamer 9/10

Title: Out There Somewhere
Genre: Action, Adventure, Indie
Developer:
MiniBoss
Publisher:
EQGames
Release Date: 14 Mar, 2016

 a09c17d780

**Processor:** 1.2 Ghz

Memory: 1 GB RAM

Graphics: 512 MB

DirectX: Version 9.0

Storage: 300 MB available space

English,French

Short platforming game with a nice soundtrack and clean pixel art. Wish it was longer and had more story to it, a prequel\/sequel would be neat!
